Subject: Crinan Canal Assisted Passage 2018

Good Day,

I am contacting you to let you know that Yotspot are no longer providing assisted passage on the Crinan Canal anymore and that if any of your members are looking to hire assistance for transit we recommend a number of private pilots (below).

Please can you circulate in an email to your members so they have knowledge of arrangements in advance of their journey.

Scottish Canals will aid boats to transit as much as possible from one lock to the next, however if boats are single handed, never transited the canal before or looking for a speedy transit we recommend contacting a private pilot and making arrangements with them. Pilots on the list are all experienced either having worked for us or on the canal taking boats through for years.

Please circulate to your members.

Many Thanks

Donna
