

HARKEN® ONE DESIGN REGATTA – LARGS SC 12TH TO 13TH JUNE

photos by Hilary Connolly

What an event - Fantastic Weather! Great Courses! Well Run Races! Over 60 boats in 4 classes

Largs Sailing Club excelled themselves, over the 12th & 13th of June, with a fantastic event sponsored by HARKEN - their first major regatta of the year - the HARKEN ONE DESIGN REGATTA, a brand new event to Scotland for Musto Skiffs, D-Zeros, RS400's and 29ers.

21 Musto Skiffs, 21 D-Zeros, 13 RS400's and 5 29ers entered for the event showing just how keen people are to get back to competitive racing after a very extended COVID break.

Day One - Saturday 12th

After a slightly bleak and damp start to the day the weather cleared to deliver a sunny day with a brisk 14-16kts winds from the west, which can be challenging with winds coming over the Isle of Cumbrae; but the brave race officer, Chris Nichols, and his team of mark layers made what turned to be a great decision to set long courses across the Largs Channel and risking getting fairly close to the island shore, with three fleets doing longer windward leeward courses and the pesky d-zeros being sent off to play slightly to the south on their own semi-quad courses. The wind held, giving shifty but great racing. The beats were probably 0.8nm but boy did they feel longer and three or more laps tested early season fitness! Four races were sailed but luckily our kind RO let us off with two shorter races in races 3 & 4 .Racing was really tight in all the fleets magnifying the effect of missed shifts and dodgy mark roundings.

HARKEN® ONE DESIGN REGATTA – LARGS SC 12TH TO 13TH JUNE

A sunny warm day dawned to reveal a shift of wind into the south with signs that things might be getting more spirited. Whilst it was predominantly wind with tide all day the waves were also starting to build – it turned out to be a day for the heroes.

Rising early for a 10.30 start, some of the more enthusiastic partyers were beginning to realise this might be a taxing day and boy was it! The race team were kind in repeating the slightly shortened courses of the latter part of the previous days racing, but that was small compensation for what was to come. The wind built throughout the day from 16/18kts rising through the races to top out at 28kts and maybe more on the eastern side of the channel where the waves grew to a metre plus to give some seriously entertaining downwind legs for the D-Zeros and big blasts mid-channel for the asymmetric boats. The Musto Skiffs hitting speeds around 20kts! A day for the brave and BIG stories of the waves that didn't get away. In the warmer weather (18/20 °C) it seems swimming was popular too! Chris Nicol's benevolent side shone through when he decided to call it a day after three races and send the fleets home for a bit of TLC, Burgers and Beer. Thanks Chris, the RO's team, shore crew and the fantastic hardworking mark layers.

The final test of the day was for the errant "Slipway Catchers" , whilst a little decorum was instilled by the "guard rib/ flight controller" the Mustos were keen to continue their Kamikaze ways with hi-speed, maybe not so controlled landings more akin to a landing on the "flat tops of WW11" than a considered slipway approach

"Maverick that's a negative the coast is not clear! OK catch this rope and we'll pull you in and grab your "bits" as they float by! Very classy!
